Dear Senator Bayh,

May I use your good offices to procure a "C I A spokesman" to address our Rotary Club on "The Need of a Foreign Intelligence System". The C I A has received quite a beating over the past year and we would like to hear from one of the C I A people as to their side of the story. I would like as high a ranking person as possible because he will have a professional and sophisticated audience.

Thank you very much.

Sincerely,
